Dear Sir,

When studying scientific literature concerning the problems of imagery, I met several times with quotations of your works; from this fact I have concluded that you are one of the prominent specialists in this field.

With regard to the fact that at the present time I am working at a thesis whose main topic are imaginative activities, I would appreciate, if you could send me reprints of papers you have published on this subject. At the same time, I'd be obliged to you, if you could let me know your opinion on what should not be omitted in such a work.

I thank you in advance for your kind help.

Your sincerely,

Vl. Kebza
